How will your screening team assess the next explosive threat?

 **3,950**

**Unattended and Suspicious
Package Incidents in 2020**

287 Hoax Device
Incidents; 

90% of those were  **IED-Type Devices**

Improvised Explosive Devices pose a huge threat to security operations in various scenarios. As a first line of defense, X-ray screeners in mailrooms, checkpoints and loading docks must be well trained to identify the latest threats. Click below to download our latest resource, capturing **10 key X-ray screening facts**.
