# Customized Online X-ray Screener Training

**Online X-ray Interpretation Training**  
A well-trained X-ray Operator is the key  
to a successful screening program.

# COURSE OVERVIEW

MSA Security's **Online X-ray Screener Training Solution** is a robust and proven curriculum designed by MSA bomb technicians who are trained and certified by the FBI. Each day, MSA bomb technicians are engaged in real-time with X-ray screeners across the globe to view, interpret and analyze a broad range of suspicious images. That unmatched professional insight is at the root of MSA's dynamic training content. Accessed via the web, this training offers unprecedented insight into real-world scenarios and focuses on X-ray interpretation, explosives recognition, IED awareness and more. This state-of-the-art online learning management system also offers robust tracking and reporting capabilities, as well as other functionality to support program integrity.

## Comprehensive Online Curriculum Delivers Dynamic Content:

**X-ray History and Safety • X-ray Physics • Improvised Explosive Devices  
Principles of Screening • Practices of Screening • Review and Testing**

## THE VALUE OF SCREENER TRAINING

Screening technology is used at the entrances of commercial office buildings, mailrooms, air cargo facilities, landmark checkpoints, entertainment venues and sports arenas. Experienced and well-trained screeners are a critical component to screening success. Misinterpretation of suspicious items is a liability risk leading to unnecessary evacuations, operational inefficiencies or – in the worst case – the mishandling of a true explosive threat.

## ONGOING & ON-SITE TRAINING

Course participants can elect to receive **MSA's Explosive Digest newsletter**, which delivers breaking news on emerging threats and the latest IED presentations. The MSA team gathers and vets trends in terrorism, explosive screening and detection, changes in the National Terrorism Advisory System and other timely topics of interest to create this unique-to-the-industry informational resource.

**Live classroom and on-site training** are available as a supplement to e-Learning classes. Delivered by MSA's experienced subject matter experts, the live course classes mirror the online curriculum to ensure consistency across screener population.

# COMPANY OVERVIEW

MSA Security® is the premier provider of **explosive detection services and high consequence threat protection**. MSA has divisions in Security and Investigations and is able to provide comprehensive security solutions tailored to our clients' needs. With over 1,000 employees, our team is comprised of active and retired members of specialized law enforcement units across the nation (e.g., Bomb Squad, Tactical, and Counterterrorism Units), as well as elite military organizations. As a result, our clients have immediate access to individuals with extensive and unrivaled experience in the areas of:

Explosive Threats  
Executive Protection  
Threat Intelligence Analysis  
Threat Assessment and Planning  
Special Event Security  
Investigations

MSA has been **Leading the Industry in High Consequence Threat Protection Since 1987**. MSA's pioneering range of best-in-class security services enables us to execute situation-specific plans that protect the flow of business and keep things moving.

*In 2004, the Department of Homeland Security designated MSA's SmartTech® under the SAFETY Act (Support Anti-Terrorism by Fostering Effective Technology). This designation greatly reduces the risk of clients' excess liability in the event a terrorist attack occurs while SmartTech® is deployed in the defense against, response to, or recovery from an act of terrorism.*
