

# LIVE X-RAY SCREENER TRAINING

HOW WILL YOUR SECURITY TEAM ASSESS THE NEXT THREAT?

## COURSE OVERVIEW

MSA Security®, An Allied Universal® Company, designed this comprehensive online and onsite training course for an entry-level X-ray screener operating in a mailroom or at a checkpoint screening station. It is taught by FBI-trained bomb technicians. Whether held at your facility or online, the course includes a two-hour didactic presentation and real-world exercises relevant to your specific X-ray machine make and model. MSA will tailor the course to the specific make and model of your machine. Training includes overviews of:

- MSA SmartTech® System
- Terrorist Tradecraft
- Composition of an Improvised Explosive Device
- Basic X-ray Interpretation

## LEARNING OBJECTIVES

1. Understand threats to client's facilities from an Improvised Explosive Device (IED).
2. Understand the basics of explosive dynamics.
3. Identify and describe the components of an IED through X-ray interpretation.

## MSA EXPLOSIVES DIGEST

MSA keeps you up to date on emerging threats by delivering breaking news about issues affecting your perimeter security program. Experienced bomb technicians gather and vet open source intelligence reports from around the world each day. The MSA Explosives Digest covers trends in terrorism, explosive screening and detection, changes in the National Terrorism Advisory System and many other timely topics of interest.
