

# CUSTOMIZED ONLINE X-RAY SCREENER TRAINING

## ASSESSING THE NEXT THREAT

X-ray screening is a critical component of any effective layered security plan and essential in combating today's escalating risk of Improvised Explosive Devices (IEDs). To address this threat, screening technology is used at the entrances of commercial office buildings, mailrooms, air cargo facilities, landmark checkpoints, entertainment venues, and sports arenas.

While the technology provides meaningful explosive detection capabilities, experienced and well-trained screeners are a critical component to success. Misinterpretation of suspicious items is a liability risk leading to unnecessary evacuations, operational inefficiencies or – in the worst case – the mishandling of a true explosive threat.

### HOW WILL YOUR SECURITY TEAM ASSESS THE NEXT THREAT?

---

## COMPREHENSIVE X-RAY SCREENER TRAINING

MSA Security®, An Allied Universal Company, offers [Online X-ray Screener Training](#). Our robust and proven curriculum is designed by MSA bomb technicians who are trained by the FBI. Each day, MSA bomb technicians are engaged in real-time with X-ray screeners across the globe to view, interpret, and analyze a broad range of suspicious images from over 1,000 X-ray machines worldwide. That unmatched professional insight is at the root of MSA's dynamic training content.

Accessed via the web, this training offers unprecedented insight into real-world scenarios and focuses on X-ray interpretation, explosives recognition, IED awareness, and more. This state-of-the-art online course also offers robust tracking and reporting capabilities, delivered through a world class learning management system.

### Comprehensive Online Curriculum Delivers Dynamic Content:

- › X-ray History and Safety
- › X-ray Physics
- › Improvised Explosive Devices
- › Principles of Screening
- › Practices of Screening
- › Review and Testing

## ON-SITE TRAINING

On-site training is recommended at most locations. Delivered by MSA's experienced subject matter experts, the course provides opportunities for more direct instructor feedback. The online course mirrors the live classroom curriculum, and serves as a great tool to scale training across geographies, or reinforce training on a routine basis.

## ONGOING

Course participants can also elect to receive [MSA's Explosives Digest newsletter](#), which delivers breaking news on emerging threats and the latest IED presentations. The MSA team gathers and vets trends in terrorism, explosive screening and detection, changes in the National Terrorism Advisory System, and other timely topics of interest to create this unique-to-the-industry informational resource.
